will discharge a faithful employed merely because he happens to be an enemy alien."

There was a lult in the alien rush on the Federal Building yesterday. Only 1,500 sought permits, against 3,500 who crowded the Federal building on Monday. Nevertheless, Marshall McCarthy had twenty-five extra deputies ready to expedite registration. This makes a total of fifty men who will remain on duty until June I, the last day on which applications will be received. The city was divided into districts yesterday, and the deputies began investigating applications for permits to enter forbidden areas. Discharges Follow Many Requests for Signatures on Applications

Marshal Denounces Employers' Actions

Fears Germans Will Become Burden on U. S.; Obtains Reinstatements

More than 100 Germans in the line that waited yesterday in the Federal Building for the permits without which they scarcely can venture from their homes after June 1 said that their employers had discharged them rather than indorse their applications for per-

"I telephoned the heads of at least a dozen large concerns throughout the city to-day," said the marshal, "urging them to reinstate unnaturalized Germans whom they had discharged. Action of that sort is narrow, unfair and detrimental to the government. If this dismissal of aliens doesn't stop at once there will be hundreds of Germans out of work soon. What's to become of them? It's very likely they will resort to acts of violence. The result will be they'll have to be interned. Thus, the nation will have to support them and lose the services of hundreds of laborers.

"Besides, most of the Germans are law abiding and will ultimately make good citizens. Their dismissal is a form of pettiness which cannot be condoned and should be stopped at once. No patriotic American business man No patriotic American business man

### Affiliated Interests and Their Employees. With few exceptions there are no great banking houses in

existence to-day that were in business before the Civil War. WHY? Because their assets are liquid and in hard times or emer-

WHY?

Because most of their money is invested in Real Estate. Prime, Ward & King were the great bankers in the years before the Civil War. If they had bought four or five blocks of lots on Broadway or Fifth Avenue between 40th and 60th streets for \$300, \$400 or \$500 per lot, as they could have done at that time, and then held them until today, this firm would probably have been in existence yet and one of the wealthiest banking houses in the world.

You Bankers and Brokers of to-day,-what with "War Brides," "War Babies," extra dividends, new bond and stock issues-have all made big money in the last few years. Don't put all your eggs in one basket. Cast an anchor to windward.
